Energy Infrastructure Team Announces Promotion of David Dise, PE

READING, PA - [Entech Engineering, Inc.](http://EntechEngineering.com) (Entech) is pleased to announce the promotion of David Dise to Project Engineer after successfully completing the Professional Engineer’s exam.

David is a leader in the development of design solutions for Entech’s energy production and infrastructure clients throughout the US. “It has been quite the journey to receive my Professional Engineering license. I want to thank both my colleagues and family for the support that they have provided me throughout this process. I am truly looking forward to seeing where my license takes me in my career,” shared David.

He joins a growing group of Entech employees who joined as interns and reached early career milestones. As such, David is a terrific trainer and mentor to newer team members. Tanner Sattler, Principal and Director of Energy Production and Infrastructure Services, said “David has been a wonderful addition to our team ever since the start of his internship. We have been proud to watch him develop into the engineer that he is today, and now celebrate this career milestone with him. This accomplishment will help Entech better serve our energy clients nationwide.”

About David Dise, PE:

David earned a Bachelor of Science in Energy Engineering from The Pennsylvania State University. He resides in Berks County. When he is not working, you can find David hiking, biking, playing tennis and pickleball, and tinkering with computers.
