Entech Opens Hawley Office

Reading, PA – Entech Engineering, Inc. (Entech) has announced the opening of a Hawley satellite office. The new Hawley office represents Entech's seventh office location within Pennsylvania.

The office is conveniently located at 8 Silk Mill Drive, Suite 211, Hawley, PA 18428, in the historic, repurposed Hawley Silk Mill building.

Entech's Hawley office is located in the historic Hawley Silk Mill building.

Long time senior project manager, Doug Berg, PE, who recently returned to Entech, will serve as the office manager.

Entech's Vice President, Robert Weir, PE, said about the new office:

"Hawley was strategically selected for an office location, so we could better service nearby long-standing municipal clients in Northeastern Pennsylvania, as well as continue to grow our clientele in the region, by helping clients make more informed decisions as they invest in their water and wastewater infrastructure. Having a physical presence in the area will greatly enhance our customer service to those clients."

Entech currently has additional satellite offices in Lititz, Mountaintop, Pittsburgh, Pottsville and State College, in addition to its corporate headquarters in Reading.
