## Entech Recognized as One of the Best Places to Work in PA

Reading, PA - Entech Engineering, Inc. (Entech) is pleased to announce the company has been ranked #15 in the list of Best Places to Work on Pennsylvania. The awards program is a public/private partnership between Team Pennsylvania Foundation, the Pennsylvania Department of Community and Economic Development, the Pennsylvania State Council of the Society for Human Resource Management, and the *Central Penn Business Journal*.

On hearing the news of the award, Entech President, Jeffrey C. Euclide commented,

*"We are honored to again be recognized as one of the Best Places to Work in PA. Last year was the first year Entech participated in the survey, and the news of our company being ranked #15 for medium sized companies in 2020 is particularly gratifying because our ranking significantly improved. Employee input for the survey has really helped us focus on things that can make Entech an even better place to work."*

Companies from across the state entered the two-part process to determine the 100 Best Places to Work in PA. The first part of this process was evaluating each nominated company's workplace policies, practices, philosophies, systems and demographics. This part of the process was worth approximately 25% of the total evaluation. The second part consisted of an employee survey to measure the employee experience. This part of the process was worth approximately 75% of the total evaluation. The combined scores determined the top companies and the final ranking. Best Companies Group managed the overall registration and survey process.
